IQNITER Studio v3.9.3 (Cardio Training)

Optimizations and bug-fixes

- Fixed exerciser tile values and colors at end of session.
- Fixed that Spotify plays correct playlist when executing session sequences.
- Fixed that Set HRmax from Exerciser tiles sometimes crashed Studio.

IQNITER DesiQner v3.9.3

Optimizations and bug-fixes

- Fixed Drag/drop Steps on the open session.
- Session Name label is now marked green (as the name is shown in Studio).
- Now, the media panel does not close when refreshing music.
- Copy Stage panel is now available when no session is open.
- Spotify is not set to 50%, but as-is in Spotify player.
- Added ToolTip to Print Session. Note, you need to be logged in to httos://my.iqniter.com when printing a session from DesiQner.
